Baptiste Lake

Harrold was re-elected as president for the coming year, with Bill Evans as secretary. There was a good turnout of members, and the program was much enjoyed by all who attended.

The waters of Baptiste lake reached an all-time high early this month, and it is feared that further rain will have the effect of completely isolating this community as the road around the lake is in serious danger of flooding.

The Sunset Beach section is already cut off, with the lake waters now covering the road to a depth of a foot or more. Boat houses have been inundated, while most docks are either far under water, or have been swept away. Many basements have been flooded.

A film entitled "Opening of Parliament" concluded the program.

Mr. Quincy Moffat, Chairman Executive Committee of Canadians Unlimited was master of ceremonies.

Investment In Safety Program Pays Dividends

EDMONTON (BUP) — The City of Edmonton is putting money in the bank because it's teaching employees to avoid accidents.

For the fourth straight year, the city has received a refund on its contribution to the Alberta Workmen's Compensation Board. For 1953 it got back close to \$33,000 from a payment of \$164,000.

The refunds started coming after the city set up a safety program six years ago. This year's refund more than pays the cost of the safety department.

Drunk Sleeps On R.R. Tracks

EDMONTON (BUP) — Joseph McPherson probably would have been disturbed himself if he had known where he was when Edmonton police picked him up.

McPherson was charged with creating a disturbance after he was twice found sleeping on the Canadian National Railways tracks. He said he could remember nothing of the incident.

"MUST KEEP PEOPLE THINKING" SAYS CANADIAN WEEKLY HEAD

EDMONTON (BUP) — Alberta weekly newspaper editors have been told that their main responsibility is to keep people thinking.

The statement was made in Edmonton by the national president of the Canadian Weekly Newspapers Association, William Sawdon of Sackville, New Brunswick.

Sawdon spoke at the opening of the two-day convention of the Alberta Division of the organization. About 100 delegates were welcomed to the conference by Edmonton Mayor William Hawrelak.

Sawdon said the weekly newsmen have a responsibility to help safeguard democracy. He said the ultimate safeguard of liberty is criticism.

Mayor Hawrelak said the profession is the cornerstone of democracy. He said the press has a

great opportunity for service and great responsibilities.

The president of the Alberta Division, Robert Munro of the Vulcan Advocate, said a large number of weeklies have been installing new equipment. He said this means they can give better service and reflects confidence in the future of business in Alberta communities.

Attorney-General Exonerated In Fatal Airplane Crash

An open verdict was returned by a coroner's jury sitting in the Calgary court house Tuesday on Rev. Vincent Depaul Prosser, 29, of Edmonton and Toronto, who died in an air crash at Cochrane June 27 as result of severe burns.

The Hon. Lucien Maynard, Alberta attorney-general and pilot of the aircraft who escaped without serious injury, was exonerated by the jury.

Mr. Maynard said he was flying to Banff on business and pleasure, using a department of public works plane which was available when ever he required it. He picked up Father Vincent to accompany him and in the grounds of the Franciscan Retreat House he checked a field for a take-off after lunch.

The field was approximately three-tenths of a mile long and he was satisfied there would be no problem in taking off. On the taxi run he pushed the stick forward to raise the tail off the ground and at 45 miles per hour pulled the stick back to see if the plane would rise. It did not.

LEVELLED OFF

At 60 miles per hour he pulled

back fast and levelled off. Mr. Maynard said he wanted to get off the ground as soon as he could and build his air speed in the air before he started to climb. He believed he was airborne but was close to the ground.

Shortly afterwards he felt a slight quiver which he thought was an air current. He levelled out and then saw the high tension wire before his left wheel. He saw it

25-Year-Old Wins \$25,000.00

EDMONTON (BUP) — A 25-year-old Edmonton stenographer who won \$25,000 on a sweepstakes ticket says she has no plans on how to spend it because she didn't expect to win it.

The lucky ticket holder is Barbara Barker, a Canadian National Railways employee. She says the only thing she ever won in her life before was a bottle of bath salts.

The attractive girl lives at St. Catherine's Anglican Residence for Girls, and the residence is in an

flex and snap and then the plane headed down on a slight incline to the left, hit on the nose and top-pled over.

He felt a blow on the left cheek and noticed fire. The door on his side of the plane flew open but that on the side of Father Vincent remained closed. He fell clear, called to Father Vincent and when there was no response went back to try and get him. The heat of the flames was too great, however and he was convinced Father Vincent had been either killed instantly or knocked out.

Dr. M. M. Cantor, provincial chief coroner from Edmonton, presided and John Hart of Edmonton, acting deputy chief attorney-general conducted the examination.

Measurements, drawings and 14 photographs were submitted by Constable Frank Carron of the Calgary RCMP.

News From Other Alberta Towns

WATER AND SEWER PLANS APPROVED BY TOWN COUNCIL

REDWATER—Synopsis of By-law No. 62, to provide for sewer and a sewage disposal system for the Town of Redwater and synopsis of By-law No. 63 to provide a water supply and water distribution for the Town of Redwater, have now been approved by the Redwater Town Council.

Vote of the proprietary electors

of the town, the persons who own real property and pay taxes thereon, will be taken on these two by-laws on Wednesday, October 6.

The By-law No. 62 provides for the issuance of debentures in the amount of \$72,890.00 to cover the provision of sewer and sewage disposal system for the portion of the town not already served by sewers.

The portion of the town already served by the sewage system owned and operated by Imperial Oil will not be affected by the by-law. Provision has been made in the by-law for a special assessment for local improvements against all property abutting on the streets and avenues wherein the said system is to be installed, payable at an annual rate per front foot of property of 23 cents, payable for a period of 20 years.

By-law No. 63 provides for the issuance of debentures in the amount of \$191,800.00 to cover the providing of a water supply and distribution system for the part of the town not already serviced by

Redwater Appliances, which is chiefly on the Imperial Townsite. Special assessment of 25 cents per annual frontage foot will also be charged against all property to be served under the new water system.

Associated Engineers of Edmonton, who have done all the preliminary engineering work and survey in connection with the planning for extension of these utilities to the part of the town not now serviced, will be represented at the public meeting which will be called approximately one week before the plebiscite date.

Truck-Train Collision Takes Life Of District Woman

PEACE RIVER—An accident which took the life of one woman and sent two men to hospital occurred about 1:15 a.m. Friday, Sept. 10 when the truck in which they were riding was in collision with a train on the railway-traffic bridge at Peace River and plunged through a guard rail 60 feet into the river. Depth of water where the truck was found is about four feet.

The woman has been identified as Delphine Wynniandy of the Peace River district.

The two men in the Peace River hospital are Oliver Osli, Fort Vermilion, and Wilfred Bourassa, also of the Peace River district.

Lucky Pete Rasko

REDWATER—Everyone is going around these days touching Pete Rasko for luck. The reason why? He won a 17" television set at the Television Bingo, held on Labor Day at Fort Saskatchewan.

Surely no one deserved it more than Pete. He sold over 200 tickets on the Redwater-Canadian Legion Car Bingo, so maybe this was his reward for all the hard work.

45 New Books On Shelves

REDWATER—Announcement has been made by Mrs. James Brandon, of the acquisition of 45 new books for the shelves of the Redwater Public Library.

Most of these books are for the juvenile section, with a few new ones selected for the adult section.

Suggestions as to book selections are always welcomed by the Book Purchasing Committee.

Shell Oil Pays Ceiling For Peace River Land

EDMONTON—The Alberta mines department received nearly \$40,000 as bonus payments for petroleum and natural gas rights offered by public tender.

D. F. Morrison, mining recorder, reported the top price was paid by Shell Oil Co. for 13 quarter sections 75 miles southwest of Peace River.

Fire Destroys Farm Home

WILLINGDON—Fire destroyed the home of Mr. and Mrs. Frank Gushaty, four miles south of Willingdon Monday morning. Apparently the fire started in the second storey and had gained such headway before being discovered that all efforts to quell the flames were futile.

Mrs. George Gushaty worked like a trojan carrying out household effects, while her husband endeavored to put out the flames, but, aside from what Mrs. Gushaty was able to save, everything was a total loss, only partially covered by insurance.

This mishap is particularly unfortunate right now, as the Gushatys are just commencing harvest operations, and this late in the season there is no time to spare to erect a new dwelling.

GERALD D. HARLE of Vermilion has been awarded a \$500 scholarship by the Alberta Hotel Association. Gerald was one of 54 students chosen as a recipient of this year's university scholarship offered as part of a province-wide scholarship program.

Bert Lysiak To Teach Junior High

McLENNAN—Schools re-opened on September 1. The enrolment at McLennan public school showed a marked increase over the previous year.

Changes in the teaching staff include Mrs. Danielson, who was last year in charge of Junior High. This year she is teaching grades 3 and 4, replacing Miss Holtby, who retired in June.

The new member of the staff is Bert Lysiak, of High Prairie, who has charge of the junior high.

McLennan Beehive Of Activity

McLennan is bustling with activity this summer.

The Poole Construction Co. has completed installation of the water pipes, and have over 50 per cent of the sewer lines laid.

The Square M Construction Co. is working around the clock to complete the canal between Lake Winagami and Kimiwan.

Ed Edmard of Falher has the contract to dig the town reservoir. Many out siders have found employment due to water and sewer installations.

Progress has been very favorable in all phases despite the wet weather during the summer.

Sunny Weather Last Week Made Harvesting General In District

By G. W. ROBERTSON

Every day of sunshine that comes brings the harvest a step nearer to completion. As the frost free period lengthens the crop prospect brightens. The general drying conditions which prevailed last week made possible some starts on harvest work in all parts of the municipality. Monday, Sept. 13, came clear and sunny bringing with it the hope of a continuing spell of fine harvesting weather. Harvesting is now general.

It now appears that the damage to crops from the excessive moisture which came during the month of August is much less severe than many expected it would be. Much of the oats and barley are down or badly tangled but the wheat crop has stood up remarkably well. Rye swathing which had started earlier in August, has been resumed and apparently the crop has not deteriorated unduly.

More definite reports of the progress of harvest and of the condition of crops will be available as the season advances. Some rust has shown up in the grain fields but apparently the crop was sufficiently advanced at the time of the onset to escape severe injury. Given a spell of weather as pleasant as that which now prevails and a crop, greater in quantity and

of better quality than any had dared to hope for as recently as two weeks ago, will have been safely harvested and stored away.

Mrs. Jas. Bennett Winner Deep Freeze

MANNVILLE—A good sum was raised for the Arena fund at the Deep-Freeze Bingo held on Wednesday last in the Mannville Curling Rink. It is the first of many affairs and raffles that will be put on to raise money to complete the Arena that will soon be started.

Parents and friends of the young people of the district are asked to help all they can. As the rink is being built near the schools, it will benefit the country children as well as the town ones.

The prize winners at the bingo were: Deep-Freeze won by Mrs. Jas. Bennett of Mannville; radio, Walter Kravetz, Innisfree; Jr. Mixette, Walter Mitz, Mannville; toaster, Jack Park, Mannville; hot plate, Gar Coultman, Irma; Sunbeam percolator, Barbara Hinton, Mannville; floor lamp, Herman Rohwer, Vermilion; featherweight iron, Robert Calder, Mannville;

Table lamp, Mrs. Katie Prill, Mannville; steam iron, Stella Poliakowski, Mannville; Mixmaster, Carmen Hughes, Mannville; radio, Peter Bielisch, Mannville; electric frying pan, Albert Hinton, Mannville; Shavemaster razor, Mrs. Levina Barr, Mannville; steam iron, Mr. Crecy, Innisfree; Reliance percolator, Mrs. Red Ray, Marwayne; Jr. Mixette, Joe Bauer, Mannville; grill, W. Marcenew, Claysmore; electric frying pan, Cumberland Clark, Mannville; deep fryer, Leo Rustad, Minburn.

Local Students Attend University

Willingdon Grade 12 did particularly well this year and most of them are going on to university. Harold Pawluk, with the Alberta Hotel Association Scholarship, is taking Engineering Physics; Peter Karbasehowski and Bill Melnyk took advantage of the six week teacher training course and are already teaching school; Marshall Dzurko, Norman Kereliuk and Nester Lakusta are taking Education at University of Alberta; Victor Dzurko has not yet decided whether he will register in Physical Ed. at U. of A. or whether he will combine hockey and geology in California.

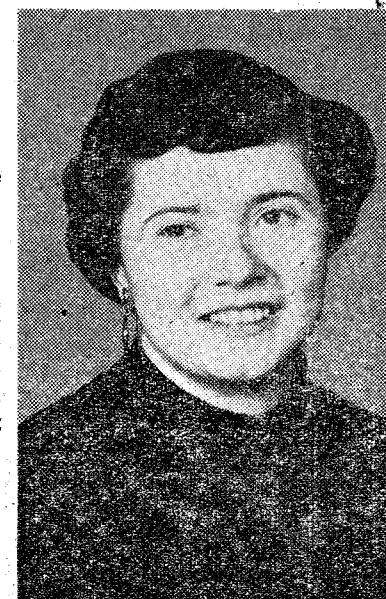

The four girls of the class are all going to University of Alberta, Patsy Mascaluk taking Home Ec., Betty Savage and Virginia Zahariuk taking B.Sc. in nursing, and Shirley Tomashavsky registering in Education; Nick Ostashek is attending Tech in Calgary, taking Commercial Wireless.

Orest Haydey, Julian Fedorak and Michael Hawrelak have not yet divulged their plans for the coming year.

323 Students Enrol At Falher School

On September 7, another school term began for many pupils of the Falher district. A total of 323 students enrolled in grades one to 12. The following is the list for the teachers of the following grades:

Grade 1, S. M. de St. Georges Arthur; grades 2 and 3, Mrs. B. Dumas with Miss Cossette as assistant; grade 4, Miss E. Bisson; grades 5 and 6, girls, Mrs. Louise Turcotte; grades 5 and 6, boys, Miss M. Bugeaud; grades 7 and 8, girls, Sister M. of St. Cyrille; grades 7 and 8, boys, Father A. Turenne; grade 9, girls, Mrs. Y. A. Lauze; grade 9, boys, Father A. Bugeaud; grade 10, Sister M. of St. Gug, abbe; grade 11, Father J. Forget; grade 12, Sister M. of St. Regine; home economics, Sister M. of St. Ann.

MISS ANNE M. MARTIN of Vermilion has been awarded a \$500 bursary provided by the Alberta Hotel Association to help worthy students through their university course in Edmonton.

Mr., Mrs. Wowdzia Honored 25th Anniversary

The Wowdzias received a silver set as an anniversary gift from the assembled guests.

Mr., Mrs. Kwong Return From Hong Kong

MANNVILLE—Mr. and Mrs. Joe Kwong have returned from Hong Kong bringing with them their youngest son, George. Mr. Kwong returned to China about two years ago and brought Mrs. Kwong and Jimmie to Canada but was unable to bring George at that time.

They left Hong Kong on Wednesday morning and arrived in Edmonton on Thursday morning by plane and journeyed to Mannville by bus on Thursday night.

Needless to say, Jimmie is very pleased to see his brother and has been busy showing him around the town.

Two Hills Young Man Goes North

Jack Domet, a resident of the Two Hills district for the past 25 years, west of town, was one of the unfortunate cattlemen to have his hay land flooded by the Vermilion river four years ago, gave up the fight and sold out in July.

After looking for a ranch in south-west Alberta and not finding what he wanted, he has bought the Robert Siddle spread on the Beaver River, in the Lac la Biche area. It is reported Jack has his feet well planted in the mud up there, having built a dam of his own for an artificial lake at his door, which he will stock with fish, duck, geese and beavers.

At least he no longer feels fenced in as he is in the wide open spaces, and can expand in the cattle business. The Domet family were feted at a farewell by a large crowd of neighbors and friends, who felt their loss was the good fortune of the Brierville district to welcome the popular and well-liked young Domet family into their new home.

They were presented with a Coleman lamp and lantern to light their way into the far north and last frontier.

Good luck to them, from the Two Hills town and district.
